SPRING SAVINGS SPECTACULAR

MERITOR

Meritor MA212 is the standard 20,000 lb. gross axle weight rated (GAWR) brake lining for OEM production brakes. This proven material yields exceptional brake power without sacrificing lining or drum wear. MA212 is the standard friction on Meritor trailer axles and is the lining of choice for many OEM vehicle manufacturers.

Meritor MA312 provides superior stopping power needed in demanding heavy duty linehaul operations. MA312 friction not only meets but surpasses FMVSS 121 requirements in combination with either cast or lightweight brake drums. The MA312 is a premium long-life material delivering exceptional performance in applications up to 23,000 GAWR. It offers service-life improvements of up to 20 percent over comparable products.
